## An insight from Deloitte

To coincide with the launch of Deloitte's annual survey of narrative reporting in annual reports – 'Gems and jetsam' – Emperor is hosting a roundtable lunch on 25th January. The report gives a fascinating insight into how companies are tackling today's regulatory requirements and provides an ideal opportunity to benchmark your annual report.

Tracy Gordon, Senior Manager at Deloitte, will give an informal presentation on the key points from

Deloitte's 15th survey, compiled following the research of 100 corporates and 30 investment trusts. This year's survey reveals that whilst some companies are producing excellent annual reports, some are guilty of including 'dead wood'.

Tracy will also touch on the Department for Business, Innovation and Skills' (BIS) consultation paper on narrative reporting, responses to which are due imminently.
